

CFS' stand-alone case labeling station is a proven, pre-engineered system specifically designed for in plant production recording. The station comes complete with our robust B15 TouchScreen PC, printer, scale base, indicator and wash-down SST cabinet (multiple cabinet options available) with cover. It can also connect to your existing printers and scales. PVC roller tops allow easy box conveying, while adjustable dimensions provide convenience in tight spaces. Multiple units can be networked together as part of a complete Production or Inventory System.

## Single Printer Cabinet

Overall Stand Dimensions

	Fixed	Mobile
<b>Height:</b>	63" - 66"	65" - 68"
<b>Width:</b>	36"	36"
